

Find out more about this Specialty Group

The Physicians/Dentists Specialty Group

Why do I join ACT?

The unique experience of ACT is a fellowship of diverse disciplines that allows fellow Christians to grow spiritually and professionally. In addition to the opportunity for members of this specialty group to gather and share and pray, the diversity of the whole of ACT allows a special forum where nurse and physician, psychiatrist and therapist, social worker and psychologist, and many others can come together in sharing and support under the banner of Christ. We are varied but we join together in a common cause of caring for the sick and hurting with Jesus Christ as our leader and our source of strength.

Each year at the International ACT Conference the group meets to share and to pray as we experience a very rewarding meeting. We leave with a great sense of satisfaction and fulfillment, fortified and looking forward to the next conference and yearning to enlighten our colleagues who could not come. See Reflections on Presentations at ACT Conferences

In addition to the annual International ACT Conference many of our regions provide opportunities for growth and support through meetings, retreats, and conferences.
