
Committees

We formed four nursing committees to address the many issues of Nursing while focusing on the mission and vision of ACT. We have three avenues with which to share our knowledge base, our gifts and the gospel message. Those avenues are the speakers at the International Conferences, the presentation of workshops and out reach programs in hospitals and in community settings. Focusing on Jesus, we have the power to go out boldly.

Our committees – which we encourage you to join – are:

- a. Advocacy regarding Health Care Issues
- b. Evangelization, Programming, Out Reach Programs
- c. Fostering Spiritual Life of members
- d. Medical and Scientific Updates and Ethical Issues
- e. Membership, Bonding and Mentoring
