

## Prophecies concerning the Nursing Booklet

Sheila Hogan Waldeck, co-chair person of the Nursing Specialty Group, brought the booklet to a regional retreat in June 2004. Standing in silence the nurses asked for a word concerning the booklet. These are the prophecies that flowed:

- “Your words are like honey in my mouth.”
- “Use me in your daily work. Go out with holy boldness. I am your guide.”
- “My heart is beating within all of you-you have the power.”
- “Open your heart and let me work through you. I need all of you to say yes to minister to a hurting world. There are so many people that need my love. Keep your eyes focused on me. And thank you.”
- A sharing and prophecy was given by a representative from the Milwaukee Archdiocese who said that there have been recent prophecies about not putting God in a box, thinking big and thinking new, also a “light on the hill” and a call to Evangelization.

Each new nurse to ACT receives a copy of the Nursing Booklet. If others are interested in our booklet it may be obtained by contacting co-chairpersons of the Nursing Specialty Group or through the membership Committee.
