

## **Airport Transportation Savings**

The cost of travel has increased thanks to the increased cost of fuel. You can help keep your expenses down by sharing rides from the airport to the conference site. For each additional passenger the limousine service increases somewhat but the cost for each person is less, since the fare is split equally between the riders. The vehicles can hold up to four and some can even accommodate 6. The fare from O'Hare to the conference center is approximately \$50 total for a single rider but just a bit over \$60 for three. So dividing a fare by 6 or even three or four can be a great help. This is especially important when you fly into Midway because the cost is almost double due to the increased distance to the Conference Center. Communicate with your friends and find out who is going. By talking with them and coordinating your travel you can ride chare and enhance your savings.

If you choose, there is also a bus service that allows one to transit from Midway to O'Hare to catch the ride to the Conference Center. This does add to your savings but it also increases your transport time by about two hours (hourly service on the half -hour and takes about an hour to reach the other airport) the cost is \$27 roundtrip.
